# Preparation Before Installation:

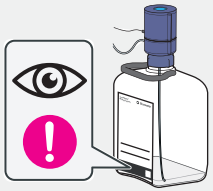

# Installation Guidelines

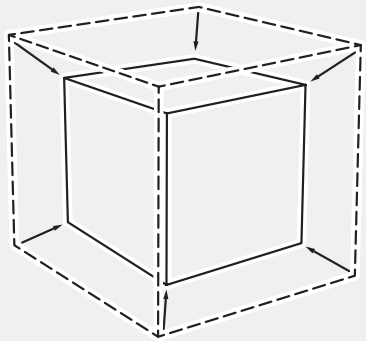

Install a backup by-pass to critical brewers.

Place the Liquid Rock™ container with the label facing outward for easy refilling access.

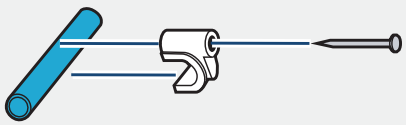

Make the installation as compact as possible.

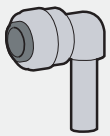

Do <u>not</u> install Bluewater Café Station directly under a knock-box.

Secure the tubing after the booster pump using appropriate clips, ties, or fasteners

Use JG elbows to tidy up long bends in tubing.

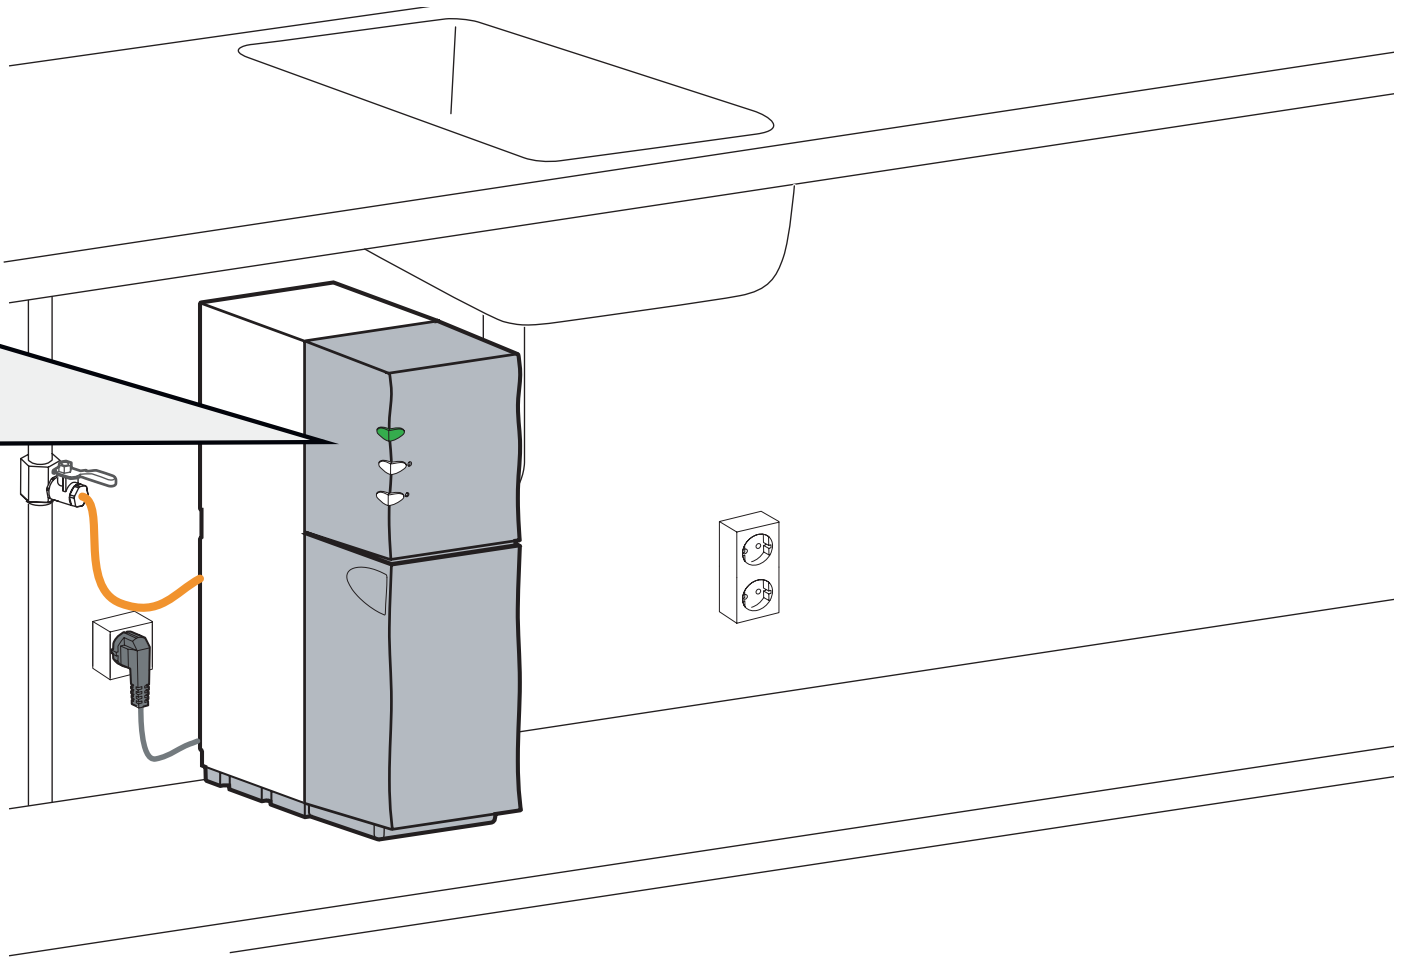

The Cafe Stations™ booster pump should not be further then 3 meters (10 ft) from the coffee machine.
